Statement of the Chairman

Dear Shareholders,

Assalamualaikum.

On behalf of the Board of Directors, I am happy to welcome you all to the 23rd Annual General Meeting of Anwar Galvanizing Limited. Thank you for your continued support and goodwill that is critical to the success of our Company.

We closed the financial year 2016-17 with recorded Revenues of BDT 249,107,204 with a growth of 36.68% as compared to that of previous financial year. Profit after

tax arrived at BDT 15,050,119 which is 56.69% higher than last year. We are expecting better growth in financial year 2017-18. The Company's operating profit suffered due to increase in power and material costs, otherwise, the profit after tax could have been better.

Along with the growth of GI Fittings, newly introduced Brake Drum products is achieving high growth continuously where there are plenty of opportunities. The Company is preparing to grab the market opportunities by continuously introducing modern technologies and operation processes. However, capitalizing on these opportunities require strong focus on innovation and collaboration which our Management Team has been working on to define strategies. Due to requirements of continued investments, the Board of Directors of the Company has proposed 10% Stock Dividend for the year ended June 30, 2017 instead of cash dividend.

During the year, Mr. Naba Gopal Banik joined the Board as an Independent Director and we hope Mr. Banik will bring to our Board rich understanding of global macro-economics, finance and investment management. His participation will add value to our deliberations at the Board.

In addition to our business goals and commitment to drive shareholder value, our Company is focused on playing its role as a Responsible Corporate Citizen. We continue to contribute towards initiatives that drive societal change in the communities where we operate ensuring that our growth is sustainable.

Before conclusion, I would thank our stakeholders for their trust and support which encouraged us. I thank the entire team of the Company for their continued efforts towards achieving goals.

I look forward to your continued support and best wishes.

Speech of the Managing Director and CEO

Dear Shareholders,

Assalaamu-Alaikum

On behalf of the Management Team of Anwar Galvanizing Limited (AGL), I would like to welcome you all to the 23rd Annual General Meeting. Your active participation greatly inspires the management team in continued performance.

Bangladesh continues to achieve sustained economic growth with GDP growing by a record 7.2% in the last year, driven largely by rapid industrialization and sustained growth in agricultural output. The country has successfully transformed itself into a state of flourishing economic growth as it proceeds to attain middle-income status by 2021. All of these positive developments give us optimism for the country's rapid and continued socioeconomic progress in the coming years.

I would like to invite the Government, Private Sectors and the Civil Society to promote corporate governance and to take a wider and more active role, in promoting shareholders activism and their rights. Today, we are more optimistic than ever, with the assurances given by the Regulators to facilitate the necessary changes in the key legislation such as enhanced protection to investors, and promotion of corporate disclosure, Director's duties, and shareholder activism and so on.

I am pleased to report another successful year for the company with hard earned performance. During the year, AGL registered double-digit growth i.e. 36.68% with revenues of BDT 249,107,204. Profit after tax arrived at BDT 15,050,119 which is 56.69% higher than last year. We have maintained consistent growth in terms of market share, the highest ever being achieved in financial year 2017-2018. Being the biggest among local producers, we have maintained our strong position in the top list. The management team is investing all its efforts to maintain continued rise in performance in future.

I would like to express our sincerest gratitude and appreciation to all of our Shareholders and other Stakeholders for continued support and encouragements.

We suffered from shortage of gas supply during the year which is the most important challenge.
